### **DETAILED ACTION**

The applicants' response filed on 10/19/2006 is made of record.

In view of applicants' response, the following rejection made in the previous office action is maintained.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-16, 31-33, 43 and 44 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Any claim not specifically rejected is rejected as it is dependent on a rejected claim and shares the same indefiniteness.

1. Claim 1 is indefinite as it is not clear what compounds are embraced in this claim and its dependent claims 2-16, 31-33, 43 and 44. As R<sup>3</sup> definition embraces a monovalent group while in the formula I, R<sup>3</sup> is depicted as a divalent group. Note alkyl, alkoxy, thioalkyl, hydroxyalkyl or carboxyalkyl are monovalent groups not divalent groups as required by the R<sup>3</sup> of formula I.

This rejection is same as made in the previous office action. Applicants' traversal is not persuasive.

First of all, as recited an alkyl is a monovalent group and one trained in the art would not confuse an alkyl group with alkylene group. Contrary to applicants' urging specification is also clear that an alkyl is methyl, ethyl, propyl... etc. which is all

monovalent groups. The fact that the term "radical" is used with alkyl does not render a monovalent group to be multivalent group

Furthermore, even the IUPAC definition clearly shows a monovalent alkane is alkyl with -yl suffix and divalent alkane is alkylidene by adding -ylidene suffix. See page 2, particularly last paragraph.

Hence, this rejection is proper and is maintained.

### **Conclusion**

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
